

"New Generation PC System"

Exclusively on European Market!

If we won't stop right away, in meaning of our demand for power made up by burning the coal=raising the CO₂, we are going to short-cut our children's future. Moreover, if we keep doing it still, they won't have any other chance; than to return back to the Stone Age. People will stay. Civilization will end.

James Lovelock, Independent

***"Enjoy Technology"
Can Be Everything!"***
